

Facility: potable water

1. User:
 - all beekeepers
2. Frequency of use:
 - yearly (at minimum)
3. Reasons for recording this information include:
 - business management
 - this record is part of CFIA registration requirements
 - it is a tool to help maintain staff accountability for pest control tasks
 - food safety
 - provides a tool for tracing potential contaminants in honey
 - part of overall management to reduce potential contaminants in honey
4. References to the Bee Biosecurity Standard and CBISQT:
 - Bee Biosecurity Standard: none
 - CBISQT: pages 28, 88-93
 - this template is an adaptation of CBISQT from 10.0.1 (page 149)
5. General comments:
 - all beekeepers who extract honey, regardless of operation size need to use potable water during honey extraction and cleaning of honey processing equipment
 - if garden hoses are used in temporary facilities, operators should ensure that they are certified to be used for potable water
