

Visitor log

1. User:
 - all beekeepers
2. Frequency of use:
 - as required
 - under normal conditions, depends on beekeeper preference
3. Reasons for recording this information include:
 - business management
 - helps protect operations from disease between bee yards and between operations
 - bee biosecurity
 - it is part of overall management to improve bee biosecurity
 - it provides a record which can help with the traceability of disease spread
4. References to the Bee Biosecurity Standard and CBISQT:
 - Bee Biosecurity Standard: page 48
 - CBISQT: none
 - this template is an adaptation of Bee Biosecurity Standard form 10.0 (page 152)
5. General comments:
 - if needed, keep a copy in the bee truck(s) for visitors to sign when entering bee yards, also keep a copy by the entrance of the honeyhouse
 - all beekeepers, regardless of operation size, may at some time face quarantine conditions that will require a visitor log to be kept
 - in a non-quarantine situation, some beekeepers may choose to have all visits recorded whereas others would not see a benefit
 - during time of heightened biosecurity risk or under quarantine conditions such a record should be continuously used
